Comments
Rochelle's dedication to her students is unparalleled. Throughout the entire course, it was evident that she went above and beyond for all students who were seeking her help. She was incredibly accessible outside of class and always made an effort to provide the best feedback possible. In instances where she felt like we could benefit from more input from the teaching team, Rochelle followed up with comments/advice/input from Professor Alsan to make sure that we truly were moving in the right direction.
Rochelle was incredibly helpful, knowledgeable, and communicative about class topics.
Rochelle was a very great instructor / teaching fellow — the class was pretty all over the place, so Rochelle had a tough task. But she was a really effective lecturer, and I appreciated her review sessions and investment in the course.
She's so good and clearly knows what she's doing, she gives amazing tips and tries to put everything in simple terms so everyone understands.

Rochelle is great at explaining and so thoughtful!
Wonderful lecturer! Loved the breakdown of the study designs
Although I wasn't able to attend the sections, Rochelle was always approachable, easy to arrange office hours with, and did a really excellent job at summarizing introductory concepts of causal inference
